

# Biomimicry as a Design Tool

post-conference track

This workshop will teach the skills necessary to use biomimicry as a tool for addressing challenges in sustainability. Through interactive and dynamic exercises, participants will gain a deeper understanding of biomimicry, practice solving real-world challenges using biomimicry, and explore some of the more intricate nuances of the emerging science of looking to nature for inspiration. The workshop will be taught by Dayna Baumeister, PhD, a co-founder of the Biomimicry Guild, who regularly leads biomimicry workshops around the country. She will be joined by John Mlade and Derek Esposito, two Guild interns who have been working with biomimicry as a design tool over the last few years. 7 AIA credits are available for architects. \$150 (\$100 for students)

**Dayna Baumeister** - with degrees in biology, a devotion to applied natural history, and a passion for sharing nature's wonders with others, Dayna Baumeister has worked in the field of Biomimicry for the last 7 years as an educator, researcher, and design consultant. Dayna finds sustenance in Montana as a gardener, hunter, and naturalist.

**John Mlade, Derek Esposito** - John and Derek will assist Dayna with the workshop. They both have significant experience researching and teaching biomimicry on the university level.

## Sustainable Resources

SOLUTIONS TO WORLD POVERTY CONFERENCE 2004  
SEPT. 29 - OCT. 2, 2004 UNIVERSITY OF COLORADO • BOULDER, CO USA

4-Day Conference featuring 40+ Keynote Speakers • Public Expo  
230 Presentations • Cultural Events

*Sustainable Resources: Solutions to World Poverty* provides a forum to draw together experts from a diverse range of industries and cultures. The 2004 Conference is host to 14 different tracks that center around issues and given topics affecting our global community. We invite you as an expert in your field to explore and create a world of difference.

### Conference Fees

Regular	\$400
NGO/Non-profit	\$300
Presenter	\$150
Student	\$150
Sponsor	\$500
